

Online Education Overcame Successfully

Ishwar Katwal

Social Studies Teacher

The entire world keeps moving on difficult situation due to COVID-19, Corona virus. Corona Virus Disease was noticed in Wuhan City of China at first. It has created severe effects on our day to day activities. It has lowered all the economic activities of developed and developing countries. According to new research, most of the well-being countries in economic sector of the world has to face several problems because Corona virus has caused problems in different sectors like education, health, social, cultural, economic and so on. COVID-19 is a fatal pandemic. It caused death in millions of people all over the world and the large number of people in the world have been suffering from this virus.

It has adverse effects on education systems of different countries. In many more countries, schools, colleges, universities etc. have been off due to lockdown. Our country, Nepal also faced four months long term lockdown. In community based school and private school had been badly affected due to it. Online education systems have recently circulated in both public and private schools. It has also provided somehow positive impression among students, teachers and parents. Melanchi Ghayang School also tried it in effective way. It is possible due to combination of all teachers, students and parents. We, all the teaching faculties of SMGSS would like to express our sincere gratitude to each and every one who directly as well as indirectly encouraged us to run on online education system. We faced several problems at first but later on we tried our best to circulate online education with the help of Android versions mobile phones even there is no network (4G,3G) in some places. Finally, we are able to circulate online education to those students who are residing in more than 15 different districts. More than 90% students are involving in senior classes. All the classroom activities are conducted very effectively on zoom conference app and google classroom. Daily assignment is provided on google classroom and all the students and teachers remain active during this session. Interaction and discussion is held every day to get feedback from students sides too. Most of the parents have facilitated Android mobile phones to their children. Everything is going smoothly at present.

Finally, we would like to thank all the familiar and unfamiliar faces who always keep us motivating in running on online education during such difficult hours. Try is the best answer in the world. Due to several tries, the largest country in the world, Russia is able to produce vaccine for COVID-19, Corona virus. We should keep trying a lot. While trying, we face many more challenges but we should not feel disheartened. We have to move on tackling with several difficulties.
